

MARY JANE GOODMAN

REGIONAL PROPERTY & FACILITIES MANAGER

Mary Jane Goodman joined ERES as a manager in its Property Management division in 2016 and was promoted to Regional Property & Facilities Manager in 2018. She has over 28 years of experience in property management and offers ERES' clients a wealth of insight in leasing, tenant recruitment and retention, and facilities improvement.

Prior to joining ERES, Mary Jane was employed by Greystar Property Management where she managed several properties in the Williston, ND area. Her unparalleled track record in tenant relations strategies, including corporate leasing and recruitment, yielded an over 30% improvement in portfolio usage for a key Fortune 500 client. Mary Jane still maintains critical relationships with this client in her current role that expands the ERES team's knowledge of high end property management, maintenance and leasing. Her experience while at Greystar also provides ERES with a competitive edge in back office management and national property management standards and excellence.

Her prowess and experience in the industry -- as well as her past successes in bringing large multifamily properties to 100% occupancy -- has positioned her as a second-to-none training resource and educator on property management tactics.

Mary Jane is a founder and current president of the Bakken Apartment Association, which communicates regularly with the North Dakota and National Apartment Associations.

Mary Jane lives in Williston, ND with her husband. She is the proud mother of three grown children and three grandchildren (with an additional grandchild on the way). She enjoys a variety of outdoor motor sports and looks forward to her daughter's upcoming role as an attorney in Austin, TX, where Mary Jane started her family and her career 30 years ago.
